- ***Updated information to be confirmed and added to newsletter. Lets us support Kevin in his task to defend "We The People of Delaware".**

Voices of "We the People":

- ✓ Dear Supporters,

As you may know, I am volunteering for the "Wade for U.S. Congress" campaign. I first met Kevin, and heard him speak, at a state GOP convention several years ago. He was presenting a resolution for our troops. Kevin's genuine and honest nature captivated me, and his knowledge and passion for our country, our founding fathers, our Creator, and our Constitution impressed me. A commitment and dedication to Kevin's campaign was a no brainer for me.

As the campaign for "The People's Seat" has progressed, I have seen firsthand Kevin's commitment, his hard work, his integrity, his unwavering desire to "fix" Washington, and his enthusiasm for the state of Delaware and the people who live here. While participating in the campaign process, I have learned that not everyone is going to have your best interest at heart, that not everyone plays nice, that not everyone lives honestly, and that it really does cost a lot of money to fund even the daily operating expenses of a campaign. I assure you that Kevin's actions have absolutely mirrored his campaign commitments. Kevin operates his campaign just as frugally as you and I operate our own budgets. As

part of campaign finance laws, we have to file quarterly reports showing how much money we have in our campaign fund. Many people review these reports and make judgments, whether accurate or not, as to how "worthwhile" and "competitive" a campaign will be. The coming weeks leading up to convention are critical, so I am asking my family, friends, and you to contribute as little as \$25, the maximum individual contribution limit of \$2,400 or anything in between. Every dollar is equally important and I'm asking you for this contribution as a small commitment to our country and our future. The stakes have never been higher, our country has never been in such jeopardy, and freedom isn't free. Please call me at 302-542-4163 if you have ANY questions or would like to volunteer. Thank YOU for your support , **Contributions are accepted on Kevin's website:**

Laurel, Delaware

Issues:

Q: Kevin, The recent Health Care Reform seems to make things worse. We all agree that the system was/is broken but how do you propose it be fixed?

A: I am bitterly opposed to the government taking over 1/6 of our national economy. This is the relative size of the health care portion in relation to the GDP of the US. The bill has too little about health and nothing about care in its construction. We will have fewer doctors, not more. We will have fewer nurses, not more. The US innovation that leads the world in medical science will be stifled. The Health Care Reform that was passed is liberal progressivism at its worst aimed at control of the citizens and not providing better care.

As your Congressman, I will NOT vote to provide appropriations needed to implement the bill. This will stop its deployment in its tracks. This will be effective with a GOP House of Representatives as all spending originates in the House. I will also vote to repeal the bill. This repeal will be vetoed by President Obama. Later in 2012/2013 after election of a GOP President I will again vote for a repeal that will be signed into law by our new President.

We only send one, let's send one of us!
