Issues: Broken Borders

Q: Kevin, Immigration has had a tremendous impact on this county not unlike previous waves of immigration except this time it is illegal, what is your solution to this mass act of law breaking upon our country?

A: First of all, we can't win a conservative argument in this nation by using words from the progressive Democrat dictionary. First, our problem is not with immigration and immigrants, it is with the flood of ILLEGAL ALIENS. If we use the disingenuous Democrat words we can't win the conservative Republican argument. So the proper phrase is ILLEGAL ALIEN. This is the legal definition.....and it is the truth.

Our grandparents and earlier generations came to this country as honored immigrants. They waited in line for permission and took their chances in the melting pot. This is the miracle of legal immigration. We honor them by keeping a sharp distinction between their sacrifice and those who come here for seasonal advantage as illegal aliens.

Our border MUST be closed to illegal aliens and human trafficking. We need to stop this flood and immediately return all illegal's captured at the border. They must be returned to the country of origin, and when the country is one of those 16 who will not accept their citizens back, they should be deported somewhere out of this country, that very day. It costs too much money to do anything else. "Catch and Release" may be good for sustainable fishing but is definitely not good border policy. We need to guard the border with patrols on horseback and agents on ATVs. Too much money has been wasted with "electronic gadgets" that fail to secure the border. These methods are too costly with too little results. Let's get back to common sense.

For those illegal's presently here in the US, there can be no amnesty. We need to enforce our laws. This includes the law banning employment. When an illegal comes up against the law via traffic violation, domestic disturbance, disorderly conduct, or gang activity; they are to be quickly confirmed for status and if they are not legal then they will be deported.

As it becomes less "convenient" to be here illegally, many will find their way home and out of the US. This will happen at no cost to the taxpayer. The problem grew over time and it will recede over time.

It is essential that we do not let a liberal Congress offer Amnesty. That will create deep problems in our nation for generations to come and lead to more law breaking in the near future. ◇◇◇
